**Carriers for your digital advertising...**  
SAFE + DURABLE + POPULAR

Due to different shapes and materials, our USB-flash drives are suitable for a variety of upgrading such as tampo- and screen-print, embossing, doming and laser engraving.

In addition, the USB-flash drives can be used as medium for digital advertising messages: product catalogues as pdf-files, company presentations in Power-Point format, video-clips etc.

**\* All USB flash drives:**  
**Capacity 1 GB - 16 GB**  
**Driver-free (except Windows 98 and below) • 10 years data retention**  
**More than 1,000,000 times data encryption.**  
**Our flash drives exclusively contain branded memory chips of market-leading manufacturers.**
